Hazardous Weather

Thunderstorms Chances Today

Heavy rainfall may lead to localized flooding

Weather Forecast Office
Amarillo, TX
Issued Sep 04, 2021 6:26 AM CDT

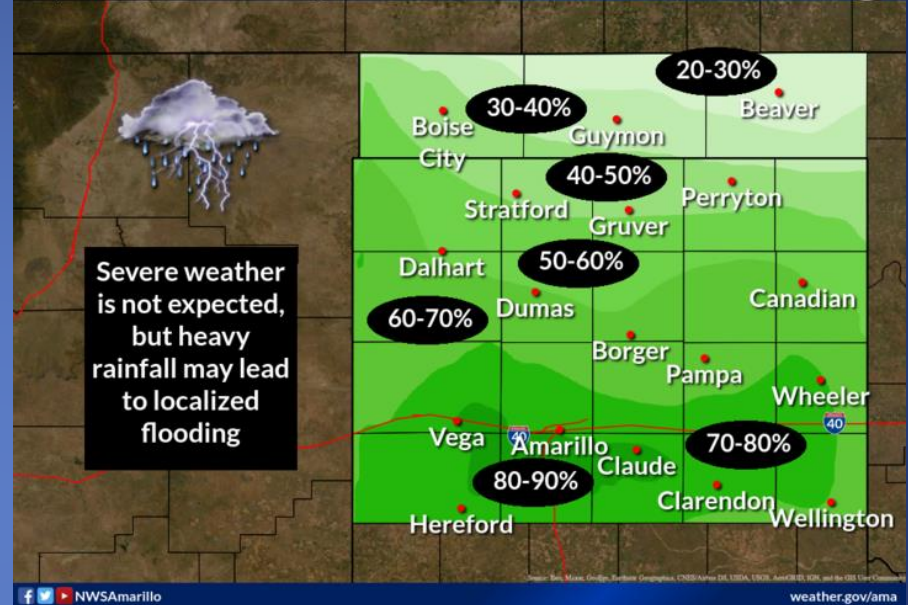

Thunderstorms will be possible across the Panhandles through the day. Storms are not expected to be severe; however, heavy rainfall may cause localized flooding.

Thunderstorms Chances Tonight

Heavy rainfall may lead to localized flooding

Weather Forecast Office
Amarillo, TX
Issued Sep 04, 2021 2:45 AM CDT

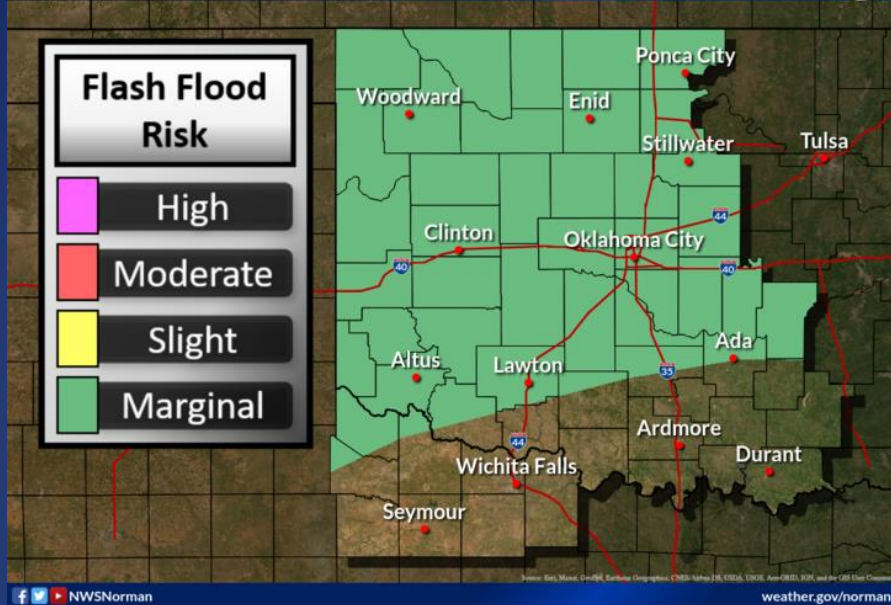

Thunderstorms will continue to be possible across the Panhandles through the overnight hours. Storms are not expected to be severe; however, heavy rainfall may cause localized flooding.

Hazardous Weather

Saturday Flash Flood Potential

Locally heavy rainfall could cause flash flooding

Weather Forecast Office
Norman, OK
Issued Sep 04, 2021 3:31 AM CDT

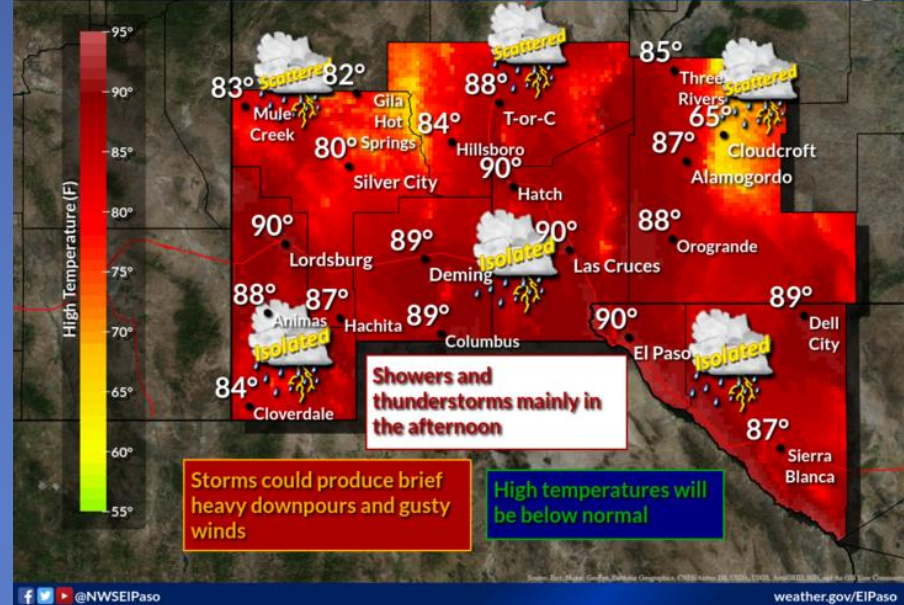

Thunderstorms could produce locally heavy rainfall leading to flooding in some areas on Saturday.

Saturday

Chance for afternoon showers and thunderstorms

Weather Forecast Office
El Paso, TX
Issued Sep 03, 2021 8:19 PM MDT

Moisture coupled with daytime heating and weakness within a ridge aloft will produce showers and thunderstorms across the Borderland mainly during the afternoon hours. Storms will be scattered across the mountains and isolated across the lowlands. Expect a few heavy downpours and gusty winds with these storms. The high temperatures will be below the normal for this time of the year.

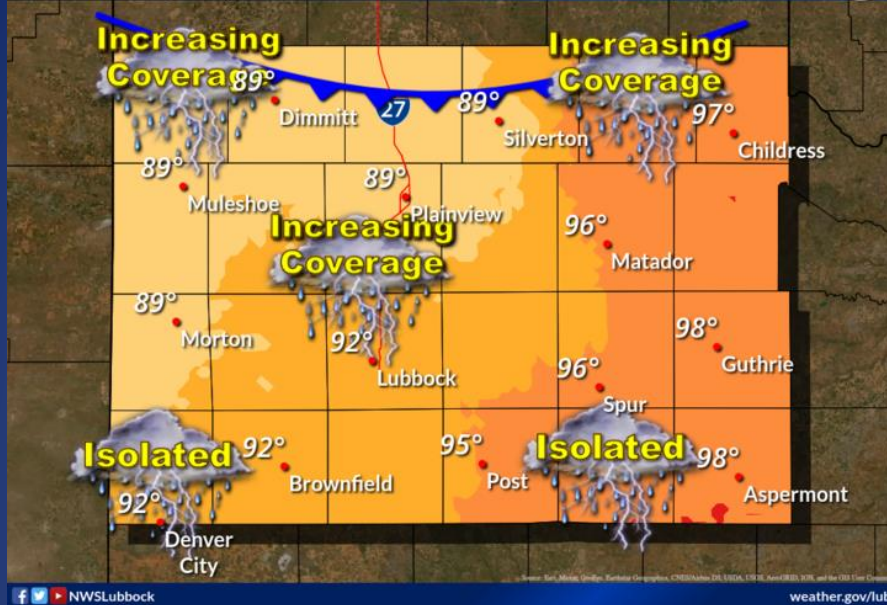

Hazardous Weather

Thunderstorms expected this afternoon

Localized flash flooding will be possible

Weather Forecast Office
Lubbock, TX

Issued Sep 04, 2021 3:35 AM CDT

Thunderstorms are expected to form this afternoon along a slow-moving cold front approaching from the north. Storms will quickly increase in coverage and will be capable of producing heavy rain which may lead to localized flash flooding. Isolated strong wind gusts up to 50 mph will be possible as well.

Thunderstorms continue into the night

Localized flash flooding will be possible

Weather Forecast Office
Lubbock, TX

Issued Sep 04, 2021 3:38 AM CDT

Thunderstorms are forecast to continue into the overnight hours tonight as the cold front slowly moves south. Localized flash flooding will be possible. Remember, if a road is flooded: Turn around, don't drown; and when in doubt, find another route.
